C --- FUNCTION: ACTS AS A SCAFFOLDING PROTEIN IN THE CELLULOSOME.

C --- FUNCTION: ACTS AS A SCAFFOLDING PROTEIN OF THE PROMOTES BINDING OF CELLULOSE TO THE CATALYTIC DOMAINS OF THE PROMOTES BINDING. CELL SURFACE.

C --- SUBCELLULAR LOCATION: CELL SURFACE.

C --- DOMAIN: CONTAINS 9 COPIES OF A DOMAIN (COHESIN) OF ABOUT 15(

C --- DOMAIN: CONTAINS 9 COPIES OF A DOMAIN GOAIN BY THE CATAL RESIDUES THAT BINDS TO THE DOCKERIN DOMAIN BORN BY THE CATAL RESIDUES THAT BINDING LICAND FOR THE ENZYMES. THIS DC COMPONENTS OF THE CELLULOSOME ENZYMES. THIS DC C WELL AS IN OTHER C. THERMOCELLUM CELLULOSOME ENZYMES. THIS DC C MAY FUNCTION AS THE BINDING LICAND FOR THE SL COMPONENT.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  Bacteria; Firmicutes; Bacillus/Clostridium group; Clostridiaceae; Clostridium.

thermoactive cellulase - Clostridium stercorarium

N;Alternate names: avicelase I

C;Specles: Clostridium stercorarium

C;Specles: Clostridium stercorarium

C;Date: 19-Mar-1997 #sequence_revision 19-Mar-1997 #text_change 24-Jul-1997

C;Accession: $12021

C;Accession: $12021
